

WHAT I LOVE ABOUT FALL!

I love Halloween and looking at everyone's cool costumes. The best part is when me my cousins have a contest to see who got the most candy. The worst part is when I eat all the candy and get a stomach ach. Also I like going to the festival because I meet my friends and play. Plus we ride the same rides, this one ride two people sit in each seat and if you on the outside you get squished by the person on the inside because the ride is constantly turning.
